

Did You Know? Plant Facts!

The plant world is full of surprises!
Here are some cool things Pip has learned:

Some seeds can stay
asleep for hundreds of
years before growing!

Sunflowers follow the
sun as it moves across
the sky—it's called
heliotropism!

A single bee might visit 1,000
flowers a day while collecting
pollen and nectar.

Bamboo is one of the fastest-
growing plants—it can grow up
to 3 feet in one day!
